Add Vaccination Information

Navigating to Vaccination Entry

Click Patients on the navigation menu.

The screenshot shows the top navigation bar of the EQRS Patient Registry. The 'Patients' menu item is highlighted with a red box and a mouse cursor. Below the navigation bar, the 'My access' section is visible, featuring a 'Patient Registry' card with a 'View access' link.

Navigating to Vaccination Entry

Click Search Patients from the Patients sub-menu.

The screenshot displays the EQRS Patient Registry interface. The top navigation bar includes the EQRS logo, 'Patient Registry', and a 'Change organization' dropdown. The main navigation menu contains 'Dashboard', 'Facilities', 'Patients', and 'Reports'. The 'Patients' menu is expanded, showing a sub-menu with the following items: 'Search Patients', 'Admit a Patient', 'Manage Clinical', 'Clinical Depression', and 'Action List'. The 'Search Patients' option is highlighted with a red rectangular box, and a mouse cursor is positioned over it. The main content area shows 'My access' information for 'Patient Registry' with a 'View access' link.

Enter Search Criteria

Enter search criteria to locate patient and click **Submit**.

ITSA PATIENT

ENHANCEMENT ANNOUNCEMENT ✕

The newly designed vaccine module aims to **enhance continuity of patient care and to reduce redundant work** for those submitting vaccination information by:

- Attaching vaccination records to the patient that follow the patient from facility to facility
- Requiring data entry only when a vaccination event occurs (e.g., log Influenza administration one time per year)

To learn more about the new vaccination module and CMS requirements [click here](#).

Vaccinations Summary

It is required to document patient vaccinations which were received or not received when that event occurs. For more information please [click here](#).

The information for ITSA PATIENT is below.
